

CAPT Suyoung Tina Chang is stationed in Food and Drugs Administration (FDA), Center for Biologics Evaluation and Research in Silver Spring, MD. She is a clinical reviewer in the Division of Vaccines and Related Product Applications. CAPT Chang received a Bachelor of Arts Degree in Biology from the University of Pennsylvania and a Doctor of Medicine Degree from the University of Rochester School of Medicine. Following internship and residency in internal medicine, she went on to complete fellowship training in allergy/immunology at Walter Reed Army Medical Center (WRAMC). She completed additional training in Transplant/HLA Immunology at Georgetown University Hospital and then served as the Director of the Transplant Immunology Laboratory at Walter Reed. She was commissioned in the USPHS in 2015. In addition to her role in DC COA, CAPT Chang also plays an active role in the Physician Professional Advisory Committee as a Voting Member and as Co-Chair of the Training Subcommittee. She is also a member of the Capital Area Provider (CAP) Team-4 and continues to see patients in the allergy/immunology clinic at Walter Reed.
